

Airshow Producer Information

Kent Gorton flies a high energy and exciting performance in his Extra 300.

During his four years as the demonstration pilot for Toyota Airsports, Kent learned how to create a great experience for the crowd and to entertain his sponsor with rides that are truly memorable.

Kent strongly feels the key to entertaining the crowd is to combine three elements:

- Great Flying**
- Engaging Music**
- Dynamic Narration**

Kent performs a variety of signature maneuvers accompanied by a custom music track with over 14 familiar songs. Kent works very hard to pull all these elements together to entertain your crowd.

In addition to the Extra 300, KGA also offers the "Jester" Pitts S2-ZZ and "Satin Doll" Bi-Plane. The 350 HP Jester is a true "muscle bi-plane" while "Satin Doll" flies a classic barnstormers routine.

Call or email for a custom quote. We aim to be a valuable part of your airshow.
